**Re: Testimonial for JLW Solutions and Janet Watts**

As a business performance coach I know the importance and often teach the value of managing your credit control and outsourcing these tasks where appropriate.

I have worked with Janet on several occasions and can happily recommend her services without hesitation. She is professional, intelligent, knowledgeable and understanding to your needs.

Financials can be a sensitive subject on both sides of a business, whether you are debtor or you creditor. Janet has a very personable approach and will represent your business as if it were her own.

If you have credit control challenges big or small I strongly recommend you contact Janet and JLW Recovery Solutions.

I have no hesitation in recommending her services
