

JLW Recovery Solutions

Part way through 2010 we decided to switch our focus from pursuing our bad debtors through the County Court to using the services of JLW Recovery Solutions.

I am pleased to say that this has been a great success. More money has been recovered than was ever recovered through the court process and the money is coming through more quickly. Also the fees are modest and significantly less than the Court fees we would otherwise be spending. We are also saving our time on chasing matters.

As a result we have also recommended her services to other clients of the firm and have heard equally good reports.

Janet Watts is very professional both in her dealings with us and our clients and I can thoroughly recommend her.
